What Sphere Signals *does for you*

1 Build and organize your real sphere

- Import CRM, CSV, contacts, and permitted email relationships
- Clean duplicates and categorize past clients, friends, vendors, and leads
- Keep every relationship assigned to the correct agent

2 Fill in the missing information

- Append available email, phone, mailing address, and property data
- Identify homeowners, purchase dates, birthdays, and home anniversaries
- Surface useful property and likely-to-sell signals

3 Tell you exactly what to do today

- Gmail drafts ready for the agent to review and send
- LinkedIn profile links with suggested personal messages
- Call prompts, referral requests, and home-value invitations
- A simple daily agent agenda delivered by email

4 Automate the right physical follow-up

- Birthday and home-anniversary notecards
- Relationship cards, letters, gift cards, and market touches
- Unique QR tracking, scan alerts, and multi-touch campaigns
- Real pen-and-ink style handwriting that feels personal
